

## **FirstLight Snowboards OZ BC trip**

We would only take a max of 4 people per trip.

We would have a briefing in Jindabyne the night before the trip to discuss ability levels and the weather forecast.

From this we would decide where we would be travelling.

Locations that can be accessed are

- Mt Twynam
- Mt Anderson
- Blue Lake
- Rams head
- Mt Anton
- Etc

Gear would be handed out to all that require rental equipment.

Gear list would include a minimum of,

- Splitboard
- Skins
- Backpack
- Poles
- Shovel
- Probe
- Transceiver
- Water
- Spare thermals
- Food

We would conduct a transceiver test and show the party how to use the equipment.  
We would meet in the car park at the car park first thing in the morning to begin the tour.  
Most of the morning would be spent skinning up to the top of the first range.

Once we were at the desired location we would normal take a small break to rehydrate and have some food. Then the fun begins.

After we at the bottom of the run be transition back to skin mode and make the journey back up the mountain

We do as many runs as we can until the decision is made to return to the car park.  
We then pack up and head back to Jindabyne.

The option is there to do multi day trips in the Back country but more gear and knowledge is required for this.
